Experience

Web3 / Smart Contract Developer
Independent Projects · 2024–Present

- Solidity smart contracts (ERC-20, ERC-721, ERC-4337)
- Chainlink VRF & oracle integrations
- Audit-ready structure, NatSpec documentation

Full-Stack Developer (MERN)
Project-based

- React frontends & Node.js APIs
- MongoDB data modeling

Walletku
Project Manager · iOS App Developer
December 2017 – Present · Jakarta, Indonesia

- Led long-term mobile product development and delivery as Project Manager.
- Coordinated cross-functional teams across engineering, product, and business stakeholders.
- Developed and maintained iOS applications supporting Walletku's core services.

Walden Global Services
Android Developer · iOS App Developer
November 2015 – May 2017

- Developed native Android and iOS mobile applications for production environments, implemented application logic, UI components, and API integrations.
- Collaborated closely with designers and backend engineers to deliver complete features.

Professional Summary

Web3 and full-stack developer with strong focus on secure Ethereum smart contracts, production-grade Web3 systems, and long-term maintainability. Experienced across startups, enterprise, and independent projects.

Education

Bachelor of Information Technology
Institut Teknologi Harapan Bangsa Bandung
2011–2015 · GPA 3.41

— Frequent   — Occasional

Languages
Solidity JavaScript SQL

Blockchain & Backend
Foundry Express MongoDB

Infrastructure & Oracles
OpenZeppelin Chainlink IPFS

Frontend
React Wagmi Tailwind CSS
RainbowKit Framer Motion
Tanstack Query

Tools & Software
VS Code Git
